RE: DEP File No: 006-0912 Request for Certificate of Compliance
Water Recirculation System and Electrical Conduit Phase III Construction
One Gillette Park, Boston

Dear Mr. Moreno,

On behalf of The Gillette Company, LLC, please find enclosed a Request for Certificate of Compliance for the completed project at One Gillette Park, Boston, located along the Fort Point Channel. This request is for the Phase III Construction, including underground piping for the circulating water system and the electrical conduits for power, controls, communication, and fire alarm cables and raceway that the Commission approved in October 2001 and was completed in November 2003. All the improvements have been completed in accordance with the submitted plans as expressed in the enclosed engineer's compliance letter.

If you have any questions or concerns, or need additional information, please contact me at (617) 357-7044 x205.

Sincerely,

Katie Moore
Senior Environmental Planner

WPA Form 8A – Request for Certificate of Compliance

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by DEP

A. Project Information

Important:

When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Upon completion of the work authorized in an Order of Conditions, the property owner must request a Certificate of Compliance from the issuing authority stating that the work or portion of the work has been satisfactorily completed.

1. This request is being made by:

The Gillette Company, LLC

Name

One Gillette Park

Mailing Address

Boston

City/Town

MA

Certificate (if registered land)

5. This request is for certification that (check one):

the work regulated by the above-referenced Order of Conditions has been satisfactorily completed.

the following portions of the work regulated by the above-referenced Order of Conditions have been satisfactorily completed (use additional paper if necessary).

the above-referenced Order of Conditions has lapsed and is therefore no longer valid, and the work regulated by it was never started.

WPA Form 8A – Request for Certificate of Compliance

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by DEP

A. Project Information (cont.)

6. Did the Order of Conditions for this project, or the portion of the project subject to this request, contain an approval of any plans stamped by a registered professional engineer, architect, landscape architect, or land surveyor?

Yes

If yes, attach a written statement by such a professional certifying substantial compliance with the plans and describing what deviation, if any, exists from the plans approved in the Order.

No

B. Submittal Requirements

Requests for Certificates of Compliance should be directed to the issuing authority that issued the final Order of Conditions (OOC). If the project received an OOC from the Conservation Commission, submit this request to that Commission. If the project was issued a Superseding Order of Conditions or was the subject of an Adjudicatory Hearing Final Decision, submit this request to the appropriate DEP Regional Office (see <http://www.mass.gov/eea/agencies/massdep/about/contacts/find-the-massdep-regional-office-for-your-city-or-town.html>).

Dear Mr. Logg:

**Re: Circulating Water System Phase III Water Circulation System
and Electrical Conduit Construction
Gillette South Boston Manufacturing Center
Boston, Massachusetts
DEP File No. 006-0912**

I am a Professional Engineer licensed to practice in the Commonwealth of Massachusetts. I am associated with the firm GEI Consultants, Inc., and in that capacity, I have been providing services to The Gillette Company LLC and its predecessor entities since 1995.

The purpose of this letter is to clarify for the record certain matters relating to Orders of Conditions issued by the Boston Conservation Commission that have been recorded with the Suffolk County Register of Deeds.

The construction of the Phase III Relocation of the Water Recirculation System and electrical conduits for power, controls, communication and fire alarm cables and raceway at One Gillette Park, which was associated with DEP File No. 006-0912, was authorized by the Boston Conservation Commission in an Order of Conditions issued on October 15, 2001.

GEI Consultants, Inc. was associated with the design and construction of these facilities and observed much of their construction. The completed work is documented in record drawings prepared by the Stone and Webster Engineering Corporation, the designer and construction manager for the work. To the best of my knowledge, these structures were constructed in substantial accordance with the authorized plans. The existing conditions are documented in a 2021 record drawing prepared by Feldman Geospatial (attached).

If you have any questions, please feel free to contact me at 781-721-4084 or via email at rtobin@geiconsultants.com.

Sincerely,

GEI CONSULTANTS, INC.

Provided by DEP

B. Findings

Findings pursuant to the Massachusetts Wetlands Protection Act:

Following the review of the above-referenced Notice of Intent and based on the information provided in this application and presented at the public hearing, this Commission finds that the areas in which work is proposed is significant to the following interests of the Wetlands Protection Act. Check all that apply:

- Public Water Supply
- Land Containing Shellfish
- Prevention of Pollution
- Private Water Supply
- Fisheries
- Protection of Wildlife Habitat
- Groundwater Supply
- Storm Damage Prevention
- Flood Control

Furthermore, this Commission hereby finds the project, as proposed, is: (check one of the following boxes)

Approved subject to:

- the following conditions which are necessary, in accordance with the performance standards set forth in the wetlands regulations, to protect those interests checked above. This Commission orders that all work shall be performed in accordance with the Notice of Intent referenced above, the following General Conditions, and any other special conditions attached to this Order. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, these conditions shall control.

Denied because:

- the proposed work cannot be conditioned to meet the performance standards set forth in the wetland regulations to protect those interests checked above. Therefore, work on this project may not go forward unless and until a new Notice of Intent is submitted which provides measures which are adequate to protect these interests, and a final Order of Conditions is issued.
- the information submitted by the applicant is not sufficient to describe the site, the work, or the effect of the work on the interests identified in the Wetlands Protection Act. Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides sufficient information and includes measures which are adequate to protect the Act's interests, and a final Order of Conditions is issued. A description of the specific information which is lacking and why it is necessary is attached to this Order as per 310 CMR 10.05(6)(c).

General Conditions (only applicable to approved projects)

1. Failure to comply with all conditions stated herein, and with all related statutes and other regulatory measures, shall be deemed cause to revoke or modify this Order.
2. The Order does not grant any property rights or any exclusive privileges; it does not authorize any injury to private property or invasion of private rights.
3. This Order does not relieve the permittee or any other person of the necessity of complying with all other applicable federal, state, or local statutes, ordinances, bylaws, or regulations.

B. Findings (cont.)

4. The work authorized hereunder shall be completed within three years from the date of this Order unless either of the following apply:
 - a. the work is a maintenance dredging project as provided for in the Act; or
 - b. the time for completion has been extended to a specified date more than three years, but less than five years, from the date of issuance. If this Order is intended to be valid for more than three years, the extension date and the special circumstances warranting the extended time period are set forth as a special condition in this Order.
5. This Order may be extended by the issuing authority for one or more periods of up to three years each upon application to the issuing authority at least 30 days prior to the expiration date of the Order.
6. Any fill used in connection with this project shall be clean fill. Any fill shall contain no trash, refuse, rubbish, or debris, including but not limited to lumber, bricks, plaster, wire, lath, paper, cardboard, pipe, tires, ashes, refrigerators, motor vehicles, or parts of any of the foregoing.
7. This Order is not final until all administrative appeal periods from this Order have elapsed, or if such an appeal has been taken, until all proceedings before the Department have been completed.
8. No work shall be undertaken until the Order has become final and then has been recorded in the Registry of Deeds or the Land Court for the district in which the land is located, within the chain of title of the affected property. In the case of recorded land, the Final Order shall also be noted in the Registry's Grantor Index under the name of the owner of the land upon which the proposed work is to be done. In the case of the registered land, the Final Order shall also be noted on the Land Court Certificate of Title of the owner of the land upon which the proposed work is done. The recording information shall be submitted to this Conservation Commission on the form at the end of this Order, which form must be stamped by the Registry of Deeds, prior to the commencement of work.
9. A sign shall be displayed at the site not less than two square feet or more than three square feet in size bearing the words,
 "Massachusetts Department of Environmental Protection" (or, "MA DEP")
 "File Number 006-0912."
10. Where the Department of Environmental Protection is requested to issue a Superseding Order, the Conservation Commission shall be a party to all agency proceedings and hearings before DEP.
11. Upon completion of the work described herein, the applicant shall submit a Request for Certificate of Compliance (WPA Form 8A) to the Conservation Commission.
12. The work shall conform to the plans and special conditions referenced in this order.
13. Any change to the plans identified in Condition #12 above shall require the applicant to inquire of the Conservation Commission in writing whether the change is significant enough to require the filing of a new Notice of Intent.
14. The Agent or members of the Conservation Commission and the Department of Environmental Protection shall have the right to enter and inspect the area subject to this Order at reasonable hours to evaluate compliance with the conditions stated in this Order, and may require the submittal of any data deemed necessary by the Conservation Commission or Department for that evaluation.

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands
WPA Form 5 - Order of Conditions
Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

DEP File Number:
006-0912
Provided by DEP

B. Findings (cont.)

- 15. This Order of Conditions shall apply to any successor in interest or successor in control of the property subject to this Order and to any contractor or other person performing work conditioned by this Order.
- 16. Prior to the start of work, and if the project involves work adjacent to a Bordering Vegetated Wetland, the boundary of the wetland in the vicinity of the proposed work area shall be marked by wooden stakes or flagging. Once in place, the wetland boundary markers shall be maintained until a Certificate of Compliance has been issued by the Conservation Commission.
- 17. All sedimentation barriers shall be maintained in good repair until all disturbed areas have been fully stabilized with vegetation or other means. At no time shall sediments be deposited in a wetland or water body. During construction, the applicant or his/her designee shall inspect the erosion controls on a daily basis and shall remove accumulated sediments as needed. The applicant shall immediately control any erosion problems that occur at the site and shall also immediately notify the Conservation Commission, which reserves the right to require additional erosion and/or damage prevention controls it may deem necessary. Sedimentation barriers shall serve as the limit of work unless another limit of work line has been approved by this Order.

See Attachment A

Findings as to municipal bylaw or ordinance

Furthermore, the Boston hereby finds (check one that applies):
Conservation Commission

- that the proposed work cannot be conditioned to meet the standards set forth in a municipal ordinance or bylaw specifically:

Municipal Ordinance or Bylaw _____ Citation _____

Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides measures which are adequate to meet these standards, and a final Order of Conditions is issued.

- that the following additional conditions are necessary to comply with a municipal ordinance or bylaw, specifically:

Municipal Ordinance or Bylaw _____ Citation _____

The Commission orders that all work shall be performed in accordance with the said additional conditions and with the Notice of Intent referenced above. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, the conditions shall control.

Attachment A- Special Conditions (Gillette Co. - Water Intake Relocation Project, Phase III), Page 1 of 3.

18. The proponent is hereby instructed to review such conditions with all contractors and workers involved in on-site operations prior to any new construction. Any contractors and workers arriving after construction commences shall likewise be appraised of these conditions.

19. The proponent shall attach a copy of this Order to the contract documents associated with this project.

20. If at any time during the implementation of the project a fish kill or significant water quality problem occurs in the vicinity of the project, all site related activities impacting the water shall cease until the source of the problem is identified and adequate mitigating measures employed to the satisfaction of the Commission.

21. Where relevant, all facilities and equipment will be continually operated and maintained so as to comply with the conditions and the Act. The applicant, owner, successor or assigns shall be responsible for maintaining all on-site drainage structures and outfalls, assuring the lasting integrity of the surface cover on the site and site activities so as to prevent erosion, siltation, sedimentation, chemical contamination or other detrimental impact to the on-site and/or off-site resources areas. This condition shall be a maintenance condition, and shall not expire upon the issuance of a certificate of compliance.

22. A copy of this Order of Conditions, including all referenced documents and plans, and all other subsequent approvals and directives issued by the Boston Conservation Commission, shall be available for inspection at the work area.

23. The Commission reserves the right to impose additional conditions or require the submittal of additional information as necessary to protect the interests of the Act.

24. There shall be no discharge or spillage of fuel, oil, or any other pollutant from this project into the waters of Boston Harbor. Any equipment used in the resource area or buffer zone that uses fuel, oil or hydraulic fluid shall be inspected daily for leakage. Any equipment requiring repair shall be repaired outside of the resource area and the buffer zone.

25. The proponent and contractor shall develop a spill management plan for any hazardous materials that may be employed during work in the buffer zone or over the water. Specifically, the proponent should prepare to effectively deal with spillage of fuel or hydraulic fluids from equipment. A quick-absorbent material, such as "Speedy Dry" or equivalent, will be stored in a dry readily available area, and used in the event petroleum-based fluids are spilled or leaked. The spent material is then to be containerized and disposed of properly. An emergency fuel boom or absorbent pads shall be readily available in case any such spill threatens the water resources.

26. In advance of construction start-up on any section of this project, the applicant shall notify the Boston Conservation Commission and, at the request of the Conservation Commission, shall arrange an on-site conference of representatives of the Commission, the contractor, the project engineer and the applicant to ensure that all the conditions of this Order are understood. The Boston Conservation Commission shall be notified at least 48 hours in advance of the date upon which construction activities on the site are to proceed. All appropriate construction impact mitigation measures must be in place prior to initiation of steel piling operations.

27. The proponent shall clean the work area at the end of each workday to prevent wind deposition of fugitive dust and accumulation of debris in the buffer zone or in the water. Prior to construction startup, the applicant shall submit a dust control plan for Commission Staff approval.

28. Except when necessary for final fitting or precision cutting, no timber or construction materials shall be cut on or near the water. All sawdust and debris shall be collected and disposed of properly. No wood preservatives including, but not limited to, creosote and cuprinol shall be placed in the waters of Boston Harbor. The applicant shall not use creosote timber.

Attachment A- Special Conditions (Gillette Co. - Water Intake Relocation Project, Phase III), Page 2 of 3.

29. All land side project related materials shall be contained to prevent erosion into the water by using all practical precautions, including but not limited to placement of double staked hay bales and a silt fence to prevent erosion of these materials into the resource area. These barriers shall be inspected on a daily basis and maintained as necessary.

30. Should any item or material be lost, dropped, dumped, sunk, misplaced, or left behind, regardless of whether it is within or outside of the project limits, the proponent must seek Commission approval of any remediation action requiring substantial impact to resources.

31. All materials that are disposed shall be disposed in accordance with applicable federal, state, and local laws. The proponent shall be responsible for the removal of any project-related debris. Proof of proper disposal shall be provided in the form of copies of bills of lading, disposal receipts or manifests to Commission staff.

32. The applicant shall inform the Commission of any violation of this Order and any other project related spill or accident that may impact wetland resource areas as soon as possible and at least by the end of the business day, and shall take appropriate action to mitigate impacts from such spill or accident. The applicant or site supervisor shall immediately notify the City of any emergency by calling 635-4000.

33. Vehicles leaving the site shall be thoroughly cleaned/washed to avoid tracking of material on to the public way.

34. Trucks entering and leaving the site shall have their loads completely covered in compliance with M.G.L. Chapter 85 § 36.

35. The Boston Conservation Commission has jurisdiction and shall maintain jurisdiction over all construction period erosion and sedimentation control practices provided that discharges, including stormwater, authorized by an NPDES permit, if applicable, shall be subject to the terms of the NPDES permit which is incorporated herein by reference pursuant to 310 CMR 10.03 (4). The applicant shall submit the NPDES permit, if applicable, and any water quality certificate relative thereto shall become part of this Order of Conditions. If a conflict arises between requirements of this Order and the requirements of the NPDES permit, the applicant shall request an amendment of this Order of Conditions to review the condition causing the conflict.

36. There shall be no overnight stockpiling or storage of construction material including unconsolidated material, piles, debris, petroleum products or hydraulic fluid within the 100-foot Buffer Zone or 100-year floodplain. No equipment with petroleum products or hydraulic fluids shall be stored overnight within the 100 foot buffer zone. This is a maintenance condition and shall not expire upon the issuance of a Certificate of Compliance. At the request of the applicant, Commission staff may authorize construction lay-down areas within the 100-foot buffer zone for the storage of equipment *during the construction period only*.

37. The proponent shall ensure the cleanliness of all catch basins on and adjacent to their project property. Catch basins shall be protected with hay bales and/or silt socks during the construction period. The proponent shall inspect and, as necessary, clean all catch basins at least weekly during construction and more frequently after a significant rain event. Upon completion of the project, this inspection and cleaning shall occur at least biannually; once between March 1st and May 1st and once between November 1st and November 31st of each year and more often, if needed. This condition shall be a maintenance condition, and shall not expire upon issuance of a Certificate of Compliance.

38. All sheet flow from where vehicles may drive or park shall be directed toward catch basins. Such basins and storm drains on site shall have oil and particle separators and meet Boston Water and Sewer Specifications.

39. Any surface drains on the project site shall have a permanent plaque within one foot of the structure that state's "Don't Dump Drains to Boston Harbor."

Attachment A- Special Conditions (Gillette Co. - Water Intake Relocation Project, Phase III, Page 3 of 3).

40. Contaminated soils/excavate shall be stored in containers to prevent migration into catch basins and covered to prevent fugitive dust conditions. The applicant must submit results of spoils test data and manifests for the disposal of contaminated material to Commission staff.

41. All areas disturbed during construction shall be stabilized as soon as possible upon completion of construction.

42. If applicable, the Applicant shall submit the Water Quality Certificate relative to the U.S. Army Corps of Engineers Section 10/404 permit to the Conservation Commission for final approval. The terms of the Water Quality Certificate shall be made part of this Order of Conditions. In no case shall they exempt the proponent from any other condition of this Order. If a conflict arises between requirements of this Order and the requirements of the Water Quality Certificate the applicant shall request an amendment of this Order of Conditions to review the condition causing the conflict.

43. The above mentioned form and all other submittals to the Boston Conservation Commission shall indicate the DEP File number 006-0212.

C. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate DEP Regional Office to issue a Superseding Order of Conditions. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Appendix E: Request of Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act, (M.G.L. c. 131, § 40) and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal ordinance or bylaw, and not on the Massachusetts Wetlands Protection Act or regulations, the Department has no appellate jurisdiction.

D. Recording Information

This Order of Conditions must be recorded in the Registry of Deeds or the Land Court for the district in which the land is located, within the chain of title of the affected property. In the case of recorded land, the Final Order shall also be noted in the Registry's Grantor Index under the name of the owner of the land subject to the Order. In the case of registered land, this Order shall also be noted on the Land Court Certificate of Title of the owner of the land subject to the Order of Conditions. The recording information on Page 7 of Form 5 shall be submitted to the Conservation Commission listed below.

- NOTES:**
- EXISTING CONDITIONS AS SHOWN HEREON IS SHOWN FROM COMPILATION OF ON THE GROUND SURVEY PERFORMED BY FELDMAN GEOSPATIAL AND AN AERIAL SURVEY PERFORMED BY BLUE SKY ON APRIL 20, 2021.
 - THIS PLAN WAS PREPARED WITHOUT THE BENEFIT OF A TITLE REPORT AND IS SUBJECT TO ANY FINDINGS SUCH A REPORT MIGHT DISCLOSE.
 - THIS DOCUMENT IS AN INSTRUMENT OF SERVICE OF FELDMAN LAND SURVEYORS ISSUED TO OUR CLIENT FOR PURPOSES RELATED DIRECTLY AND SOLELY TO FELDMAN LAND SURVEYORS' SCOPE OF SERVICES UNDER CONTRACT TO OUR CLIENT FOR THIS PROJECT. ANY USE OR REUSE OF THIS DOCUMENT FOR ANY REASON BY ANY PARTY FOR PURPOSES UNRELATED DIRECTLY AND SOLELY TO SAID CONTRACT SHALL BE AT THE USER'S SOLE AND EXCLUSIVE RISK AND LIABILITY, INCLUDING LIABILITY FOR VIOLATION OF COPYRIGHT LAWS, UNLESS WRITTEN CONSENT IS PROVIDED BY FELDMAN LAND SURVEYORS.
 - UNDERGROUND SEAWATER PIPING AND ELECTRIC DUCT BANKS ARE SHOWN FROM CERTAIN PLANS AS FOLLOWS SEAWATER PIPING PHASE III (FINAL) SECTIONS & DET'S, DATED 12/23/97, REVISED THROUGH 12/07/01, SEAWATER PIPING PHASE III (FINAL) PLAN & PROFILE, DATED 12/13/93, REVISED THROUGH 12/07/01, ELECTRICAL DUCTLINE PHASE III (FINAL) DATED 12/12/96, REVISED THROUGH 8/21/01, AND CIRCULATING WATER DUCTLINE PLAN SH.1, DATED 12/13/93, REVISED THROUGH 9/2/96, ALL PREPARED BY STONE & WEBSTER ENGINEERING CORP.
 - UTILITY INFORMATION SHOWN IS BASED ON BOTH A FIELD SURVEY AND PLANS OF RECORD. THE LOCATIONS OF UNDERGROUND PIPES AND CONDUITS HAVE BEEN DETERMINED FROM THE AFOREMENTIONED RECORD PLANS AND ARE APPROXIMATE ONLY. WE CANNOT ASSUME RESPONSIBILITY FOR DAMAGES INCURRED AS A RESULT OF UTILITIES THAT ARE OMITTED OR INACCURATELY SHOWN ON SAID RECORD PLANS, SINCE SUBSURFACE UTILITIES CANNOT BE VISIBLY VERIFIED. BEFORE PLANNING FUTURE CONNECTIONS, THE PROPER UTILITY ENGINEERING DEPARTMENT SHOULD BE CONSULTED AND THE ACTUAL LOCATION OF SUBSURFACE STRUCTURES SHOULD BE DETERMINED IN THE FIELD. CALL, TOLL FREE, THE DIS SAFE CALL CENTER AT 1-888-344-7233 SEVENTY-TWO HOURS PRIOR TO EXCAVATION.

**AFFIDAVIT OF SERVICE
FOR ABUTTER NOTIFICATION**

**Under the Massachusetts Wetlands Protection Act
and Boston Wetlands Ordinance**

I, Erika Welch, hereby certify under pains and penalties of perjury that that at least one week prior to the public hearing, I gave notice to abutters in compliance with the second paragraph of Massachusetts General Laws Chapter 131, section 40, and the DEP Guide to Abutter Notification dated April 8, 1994, in connection with the following matter:

A Request for a Certificate of Compliance was filed under the Massachusetts Wetlands Protection Act and/or the Boston Wetlands Ordinance by The Gillette Company, LLC for underground piping for the circulating water system and the power, controls, communication and fire alarm cables and raceway associated with Phase III piping located at One Gillette Park, Boston, MA

The Abutter Notification For, the list of abutters to whom it was given, and their addresses are attached to this Affidavit of Service.

**NOTIFICATION TO ABUTTERS
BOSTON CONSERVATION COMMISSION**

In accordance with the Massachusetts Wetlands Protection Act, Massachusetts General Laws Chapter 131, Section 40, and the Boston Wetlands Ordinance, you are hereby notified as an abutter to a project filed with the Boston Conservation Commission.

A. _____ has filed a Certificate of Compliance (CoC) with the Boston Conservation Commission seeking permission to alter an Area Subject to Protection under the Wetlands Protection Act (General Laws Chapter 131, section 40) and Boston Wetlands Ordinance.

B. The address of the lot where the activity is proposed is _____.

C. The project involves _____.

D. Copies of the Notice of Intent may be obtained by contacting the Boston Conservation Commission at CC@boston.gov.

E. Copies of the CoC Filing may be obtained from _____ by contacting them at _____ between the hours of _____, _____.

F. In accordance with the Chapter 20 of the Acts of 2021, the public hearing will take place **virtually** at <https://zoom.us/j/6864582044>. If you are unable to access the internet, you can call 1-929-205-6099, enter Meeting ID 686 458 2044 # and use # as your participant ID.

G. Information regarding the date and time of the public hearing may be obtained from the **Boston Conservation Commission** by emailing CC@boston.gov or calling **(617) 635-3850** between the hours of **9 AM to 5 PM, Monday through Friday**.

NOTE: Notice of the public hearing, including its date, time, and place, will be published at least five (5) days in advance in the **Boston Herald**.

NOTE: Notice of the public hearing, including its date, time, and place, will be posted on www.boston.gov/public-notices and in Boston City Hall not less than forty-eight (48) hours in advance. If you would like to provide comments, you may attend the public hearing or send written comments to CC@boston.gov or Boston City Hall, Environment Department, Room 709, 1 City Hall Square, Boston, MA 02201

NOTE: If you would like to provide comments, you may attend the public hearing or send written comments to CC@boston.gov or Boston City Hall, Environment Department, Room 709, 1 City Hall Square, Boston, MA 02201

NOTE: You also may contact the Boston Conservation Commission or the Department of Environmental Protection Northeast Regional Office for more information about this application or the Wetlands Protection Act. To contact DEP, call: the Northeast Region: (978) 694-3200.

NOTE: If you plan to attend the public hearing and are in need of interpretation, please notify staff at CC@boston.gov by 12 PM the day before the hearing.

Dear Mr. Logg:

**Re: Circulating Water System Phase III Water Circulation System
and Electrical Conduit Construction
Gillette South Boston Manufacturing Center
Boston, Massachusetts
DEP File No. 006-0912**

I am a Professional Engineer licensed to practice in the Commonwealth of Massachusetts. I am associated with the firm GEI Consultants, Inc., and in that capacity, I have been providing services to The Gillette Company LLC and its predecessor entities since 1995.

The purpose of this letter is to clarify for the record certain matters relating to Orders of Conditions issued by the Boston Conservation Commission that have been recorded with the Suffolk County Register of Deeds.

The construction of the Phase III Relocation of the Water Recirculation System and electrical conduits for power, controls, communication and fire alarm cables and raceway at One Gillette Park, which was associated with DEP File No. 006-0912, was authorized by the Boston Conservation Commission in an Order of Conditions issued on October 15, 2001.

GEI Consultants, Inc. was associated with the design and construction of these facilities and observed much of their construction. The completed work is documented in record drawings prepared by the Stone and Webster Engineering Corporation, the designer and construction manager for the work. To the best of my knowledge, these structures were constructed in substantial accordance with the authorized plans. The existing conditions are documented in a 2021 record drawing prepared by Feldman Geospatial (attached). These facilities are currently functioning as intended.

If you have any questions, please feel free to contact me at 781-721-4084 or via email at rtobin@geiconsultants.com.

Sincerely,

GEI CONSULTANTS, INC.

Richard F. Tobin, P.E.
Senior Project Manager
