RE: LafargeHolcim Charlestown Terminal Bulkhead Rehabilitation  
Request for Certificate of Compliance

Dear Mr. Moreno:

Foth Infrastructure & Environment, LLC (Foth) on behalf, LafargeHolcim c/o Gerard Muscat, is pleased to provide the soil boring location performed on March 10, 2022, as required by the certificate of compliance for the Charlestown Terminal Bulkhead Rehabilitation. This document is in support of rehabilitating an existing bulkhead located at 285 Medford Street, Charlestown, MA 02129 (Plate Number 201788000).

The geotechnical investigation was performed with the purpose of determining the geotechnical parameters needed for designing the replacement for the timber bulkhead currently in place. The program consisted of 1 of the 3 originally proposed test borings: B-02. Clay samples were taken from the other two locations (B-01 & B-03). See the attached site plan for as-built conditions post geotechnical investigations.

If you have any questions, concerns or need any further information please contact me in our office at (401) 236-0361 or via email at [Scott.Skuncik@foth.com](mailto:Scott.Skuncik@foth.com).

Sincerely,  
Foth Infrastructure & Environment, LLC
