Jen Rowe, Boston Transportation Department

Jacob Wessel, Boston Transportation Department

Louisa Gag, Boston Transportation Department

Slide deck. Note: after the meeting, we revised the pop-up schedule. The updated schedule is [here](#).

Receiving Feedback

Do dates/locations look good? ‘

- *Why these locations?* We chose these locations based on their proximity to the proposed changes. We'll set up a table but we also want to have print-outs that will allow us to walk a short distance over to the exact areas of the proposed changes and answer questions about them.
- *For location 1 on Harrison - what kind of info do we want?* We tabled here during our earlier round of pop-ups. There was a lot of foot traffic since it's so close to BMC and Rosie's Place. We heard a lot about the need for a crosswalk across Lenox St on the Rosie's Place side of the intersection. We also observed people crossing there. So we want to return to share the proposed change here.
- *There should be something further down on Tremont near Lenox and Hammond. Right now there's just location 2 at Northampton. A lot of long term community members live there. What will happen to them in the future? Northeastern was previously looking at purchasing property where the housing projects are.* That's a great suggestion. We were hoping to do a pop-up at Tremont and Hammond in collaboration with the folks from the City and community working on the Frederick Douglass Peace Plaza. We'll circle back with them to make that happen.

- *Could you move location 4 to an area where more people are? Tremont is busier around lunchtime. Also, Tropical Foods is very busy. Could you have a pop-up there? That's a great idea. We'll look into shifting location 4, maybe to Tremont and Hammond, and adding a pop-up at Tropical Foods.*

Do you know a local interpreter for Spanish?

- *Yes, we have two contacts for interpreters. One lives in the neighborhood.*

Getting the Word Out

Are there any residents these engagement strategies won't reach? How do we fill the gap?

- *Send the postcard to the neighborhood. The postcards work, we hear from people when they get them.*
- *Roxie Homes would love to know what's going on, Mandela, Grant Manor - reach out to the management and tenant-based communities there. They're on the sidewalk of where the changes will be. That's a good point. We have worked with their management and tenants associations to distribute information in the past and will do that again for this round of outreach.*
- *Go to the BPDA schedule and see when they have meetings to bring this up within. There are a small group of people going to community meetings. So you'll reach those people if you advertise these pop-ups there. You'll also reach local community groups. We'll pull together a calendar of upcoming events and try to have a presence at them.*
- *If there's a morning pop-up, make sure to go back for afternoon/evening when people are moving slower and have more time. We realize there's a typo and one of the morning times on this slide (location 5) is actually an evening pop-up. We agree that folks are more willing to stop and chat in the afternoons/evenings.*
- *Are there partnerships with BMC to support the pop-ups? We haven't connected with BMC but we'll reach out to them.*
- *Could you contact Hampton House and Fortes House to make sure the seniors know there's an invitation to come out and chat? Yes, we'll reach out to both residences.*

Do you have suggestions for reaching businesses?

- *Reaching out to businesses through local channels. Main Streets has regular communications with businesses in the neighborhood. Great idea. We'll reach out to them.*

Do you know of other neighborhood events we can pop up at?

- *The neighborhood association will be hosting stoop parties, BTD is welcome to join. We'd love that!*

Meeting Evaluation

- No comments.

Next Meeting: Aug 18th

Note: after the meeting, we revised the pop-up schedule. The updated schedule is [here](#).
