

30 Bradford Street
Application # 22.1432 SE

South End

30 Bradford Current Entry

Currently the front entry of 30 Bradford is pushed back in the doorway

The proposal is to pull the door forward, level with front of building and with street

Bradford Street Neighborhood

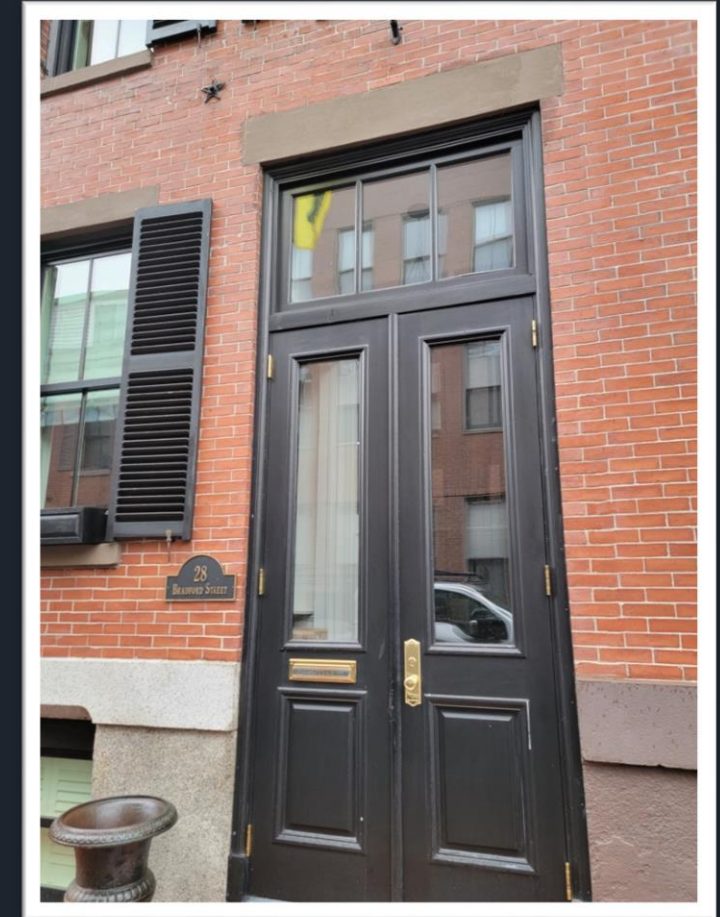

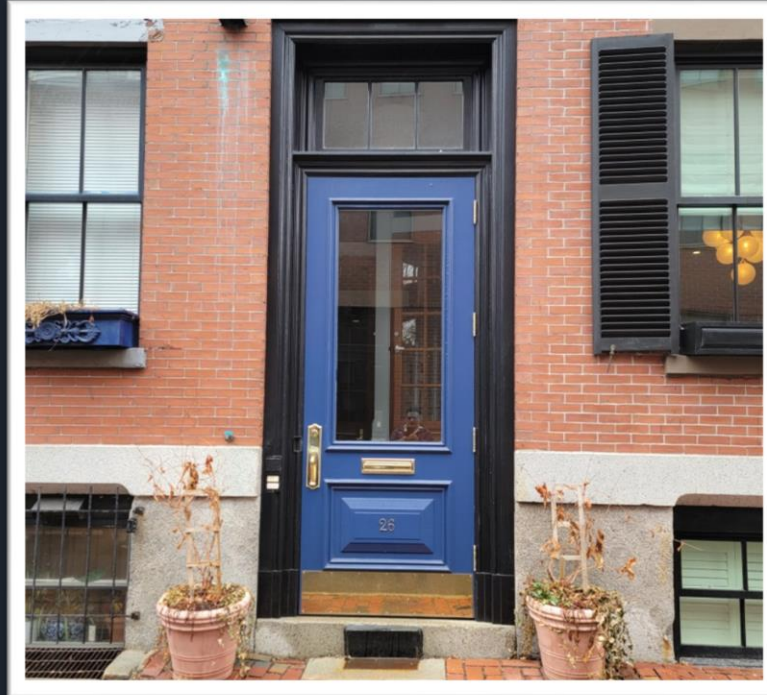

By bringing the door forward,
30 Bradford would be “in line”
with the look of its neighbors on
Bradford St

Direct Neighbors

The look and feel of 30 Bradford would match that of its Neighbors, bringing a more cohesive feeling to the Bradford Street Neighborhood

*Seen here 26 & 28 Bradford Street

Historic Photo: Front Entry

- The photo to the left was provided by the South End Historical Society. It is a photo of the Front Entry of 30 Bradford taken in 1972.

Front Doors

The current front entry doors would be re-used, simply brought forward to street level.

Other materials used would be wood trim, studs, moldings to match existing door, and paint.

DI PIERRO
CONSTRUCTION
BOSTON

Building Process:

- Remove doors & casing
- Reconstruct casing to same measurements as existing wall frame
- Install existing doors into casing
- Paint trim
- Install transom window
