Little Free Library Charter

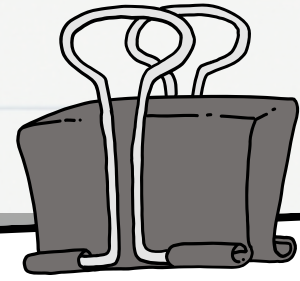

What It Is

- To use the name “Little Free Library,” we must register our library with the organization Little Free Library
- After paying the small fee, we will receive a plaque with a registration number that we can display on our library
- This would allow us to legally have a Little Free Library

Why Register It

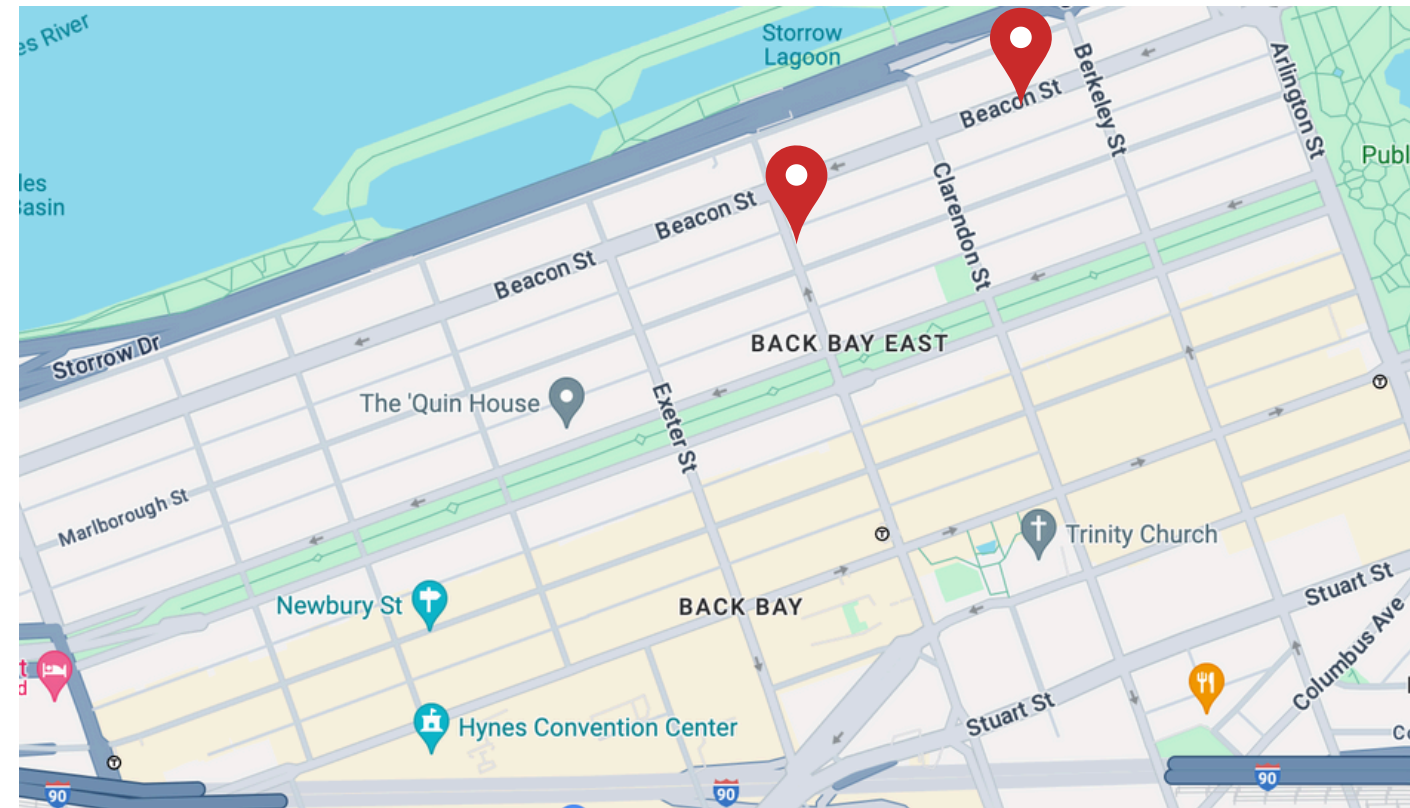

- After registering our library, we will be stewards of this organization
- We can add our library to a map containing all of the little free libraries in the world
- This would allow us to better connect Newman with Back Bay and the world

Why here?

Other Locations In Back Bay:

- To have more little free libraries in the neighborhood
- Currently there aren't any on Marlborough St
- None of the little free libraries in Back Bay are registered

Why are we doing this?

CAS

This project is a way for us to collaborate with each other, create something new, and serve the Newman and Marlborough St. community.

Community

This project's objective is to connect Newman to the Greater Boston community, by sharing the love of books.

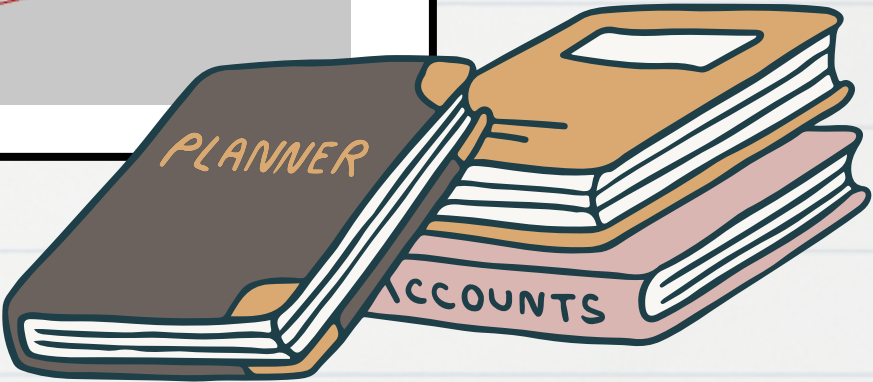

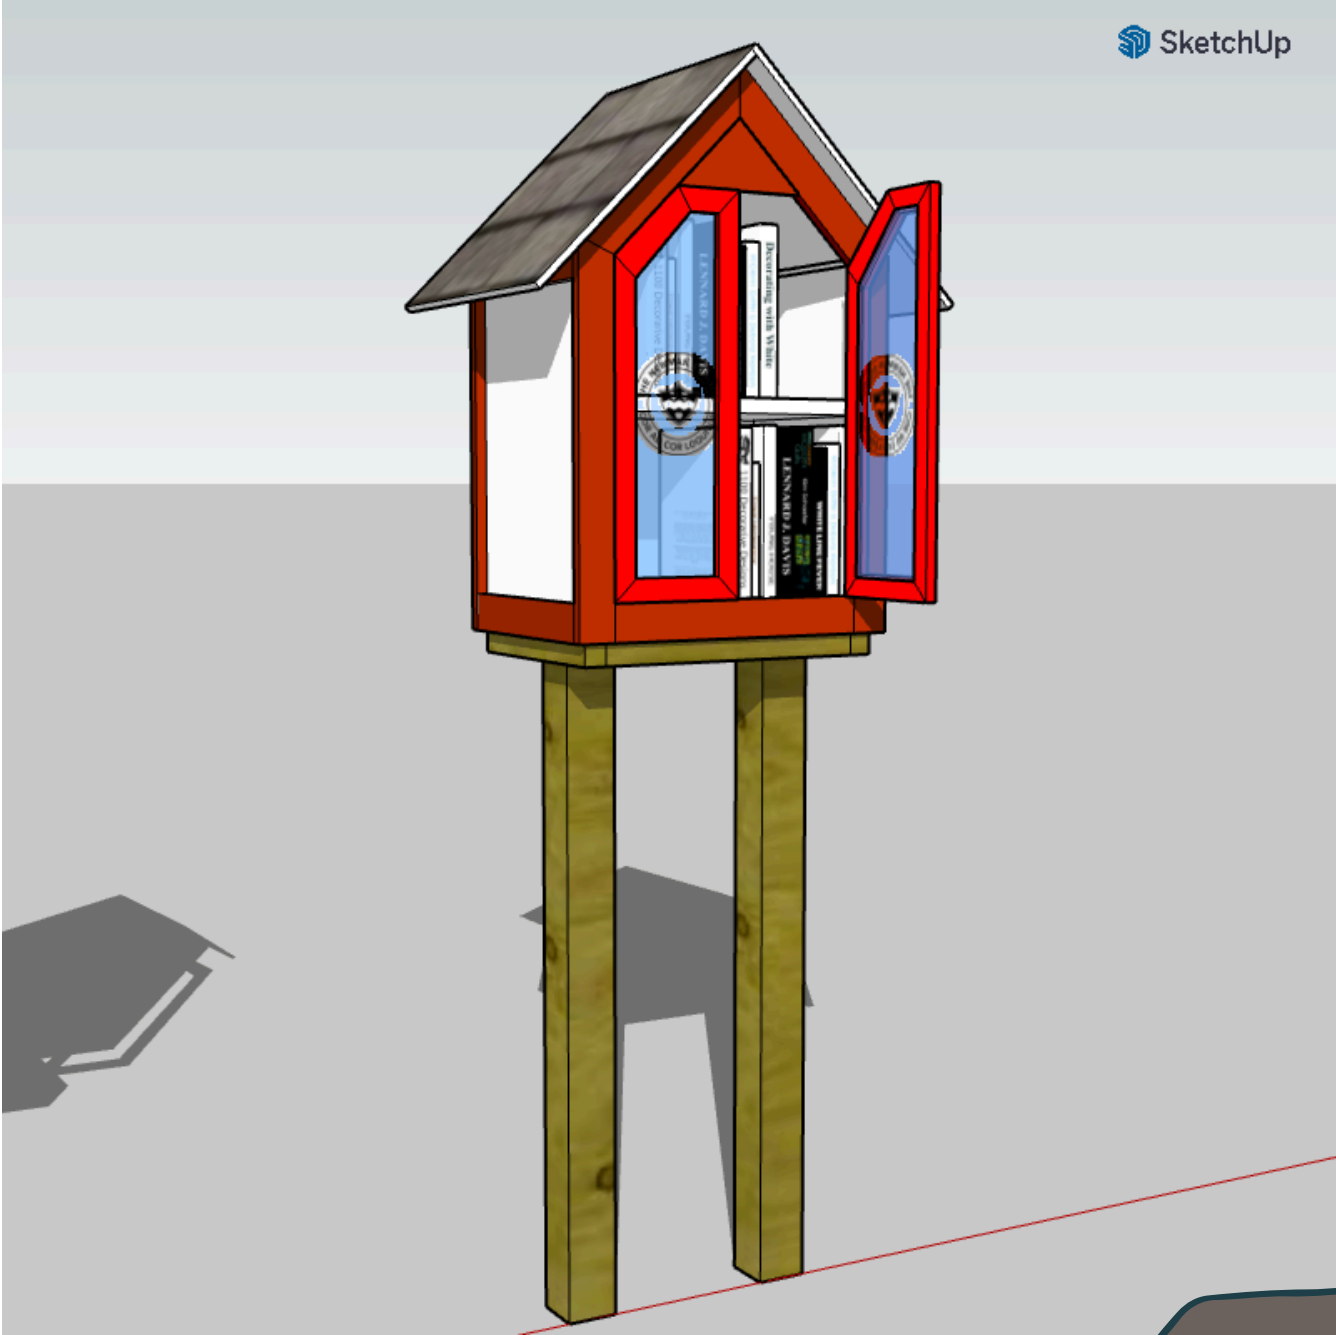

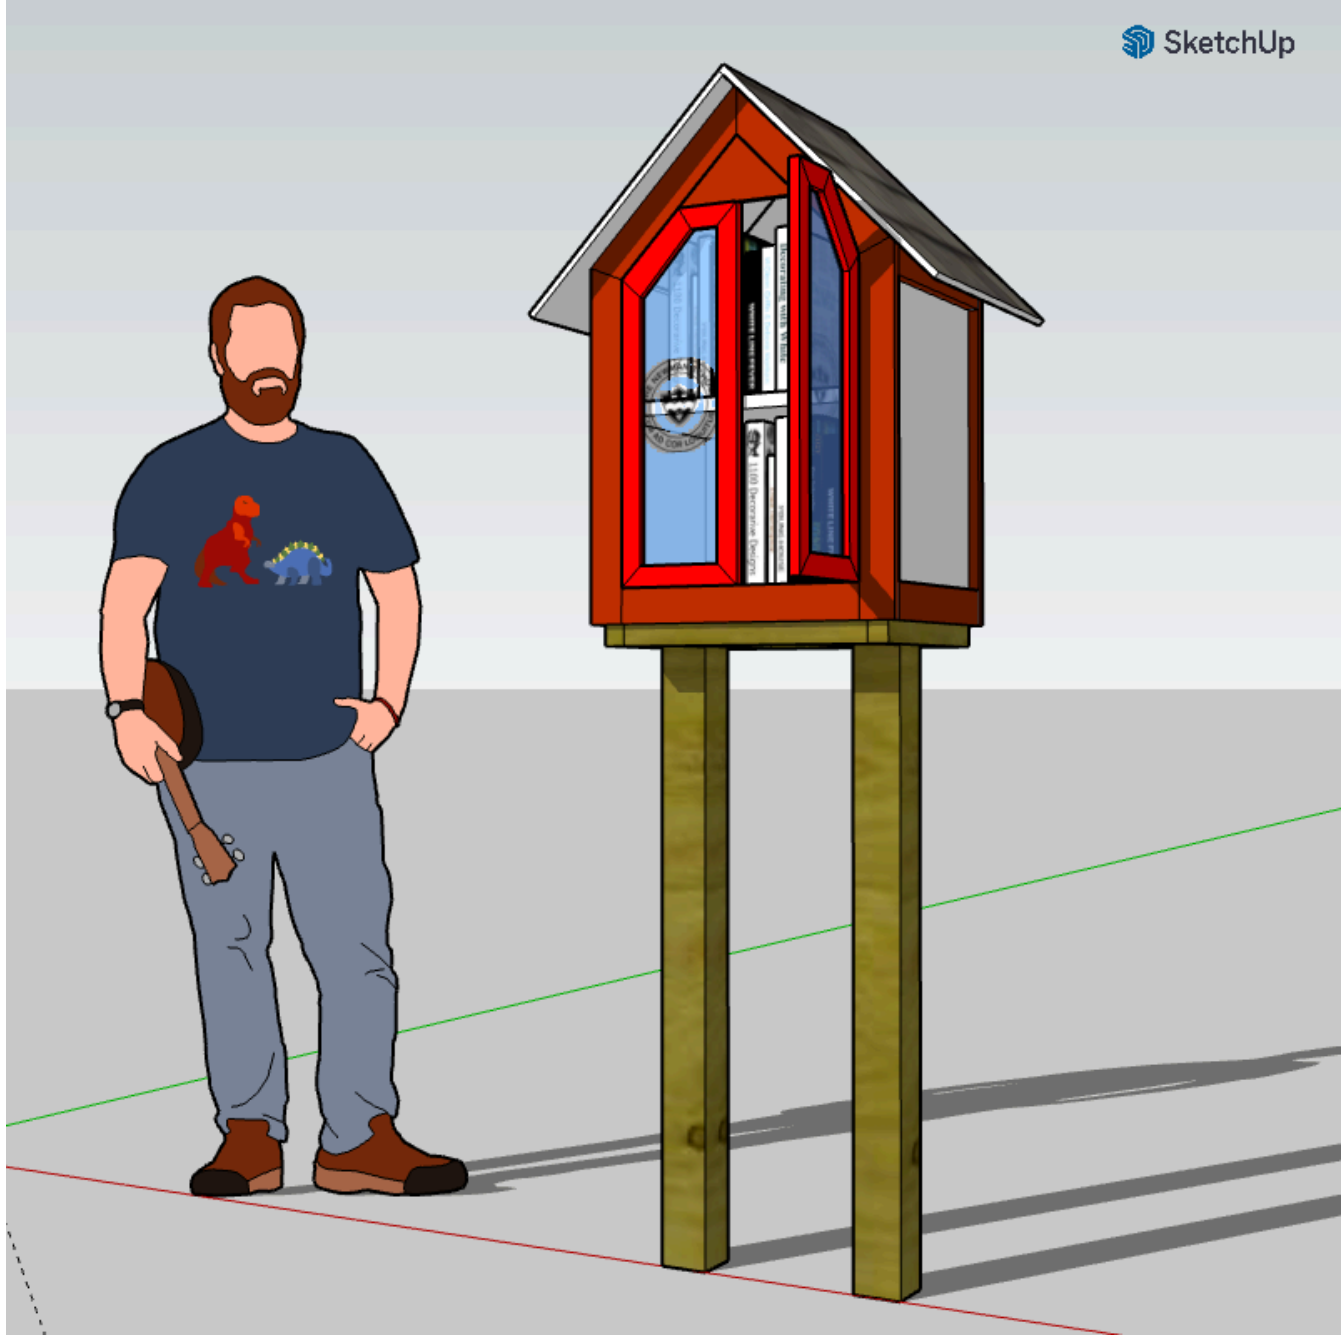

Newman

This project aims to create a collaborative environment with the Newman students and faculty to expand their education.

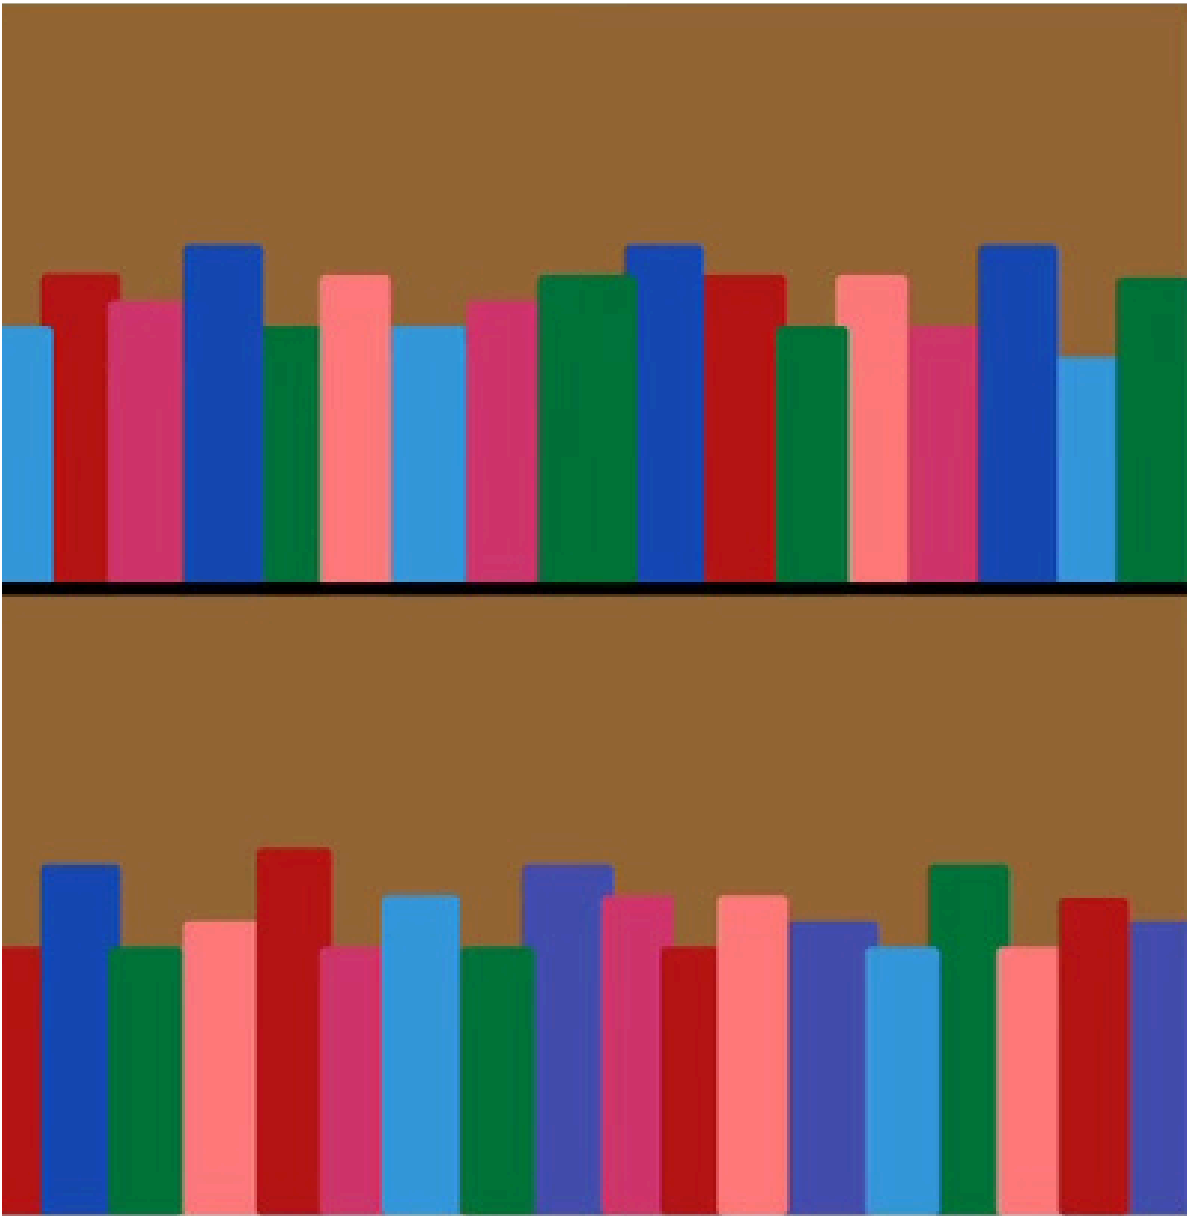

Mock Up

25" x 23" x 16"
