

Boston Biosafety Committee

Thank you for applying to join the Boston Biosafety Committee (BBC).

The BBC's role is to provide technical assistance and advice on issues related to regulation and permitting of biological research laboratories in the City of Boston.

BPHC's Mission and Vision

The mission of the Boston Public Health Commission is to protect, preserve, and promote the health and well-being of all Boston residents, particularly the most vulnerable.

We achieve our mission by providing and supporting accessible high-quality community-based health and social services, community engagement and advocacy, development of health promoting policies and regulations, disease and injury prevention, emergency services, health promotion, and health education services.

The Boston Public Health Commission envisions a thriving Boston where all residents live healthy, fulfilling lives free of racism, poverty, violence, and other systems of oppression. All residents will have equitable opportunities and resources, leading to optimal health and well-being.

Membership

The Executive Director of the Boston Public Health Commission appoints the BBC, which must be composed of at least seven members. At least two members of the BBC should be residents of the neighborhoods in Boston where research laboratories are located. The BPHC will arrange for all BBC members, including community members, who haven't worked in a Biosafety Level 3 or 4 research laboratory to visit such a lab to meet the researchers to learn about the lab's operations.

Membership also includes the BPHC Executive Director or designee, a scientist knowledgeable in the field of recombinant DNA technology, and at least three more members with expertise in public health, occupational health, infectious diseases, biosafety, or environmental health/quality.

Meetings

The BBC meets quarterly, or at other times when requested by the BPHC, to review research projects, laboratory permit applications, and related issues. BBC meetings are now held virtually during the weekday (5:30 to 7:30 pm). Before the COVID-19 pandemic, the BBC meetings were often held at the BPHC offices at 1010 Massachusetts Avenue, Boston, MA 02118.

If you have any questions, comments, or need more information about BBC membership, please contact Simon Muchohi at (617) 534-5965 or biosafety@bphc.org.

After receiving your application, BPHC staff will call you within 2-4 weeks to review your application and answer any questions you may have.

We look forward to receiving your application!

BOSTON BIOSAFETY COMMITTEE

APPLICATION FOR	MEMBERSHIP
DATE:	
Part 1: Contact Information To help us process your membership application, p and type or print clearly.	please provide all the information requested
Name:	
Home Address:
