

Massachusetts Integrated Energy Planning (IEP) Stakeholder Working Group

Virtual Public Listening Session Opportunities

- Evening Listening Session (virtual): Tuesday August 19, 7 – 8PM ([REGISTER HERE](#))
- Afternoon Listening Session (virtual): Thursday August 21, 2 – 3PM ([REGISTER HERE](#))

Massachusetts' Electric Distribution Companies, National Grid, Eversource, and Unitil, invite you to learn about and provide feedback on Integrated Energy Planning (IEP).

IEP is a way to coordinate investments across electric and gas networks to minimize cost while ensuring safe and reliable service and supporting Massachusetts' clean energy goals through strategic planning.

At the public listening session, the public is invited to:

RECEIVED

By City Clerk at 11:56 am, Aug 06, 2025

- Ask questions about the transition to electrification
- Learn about the coordination between the gas and electric systems
- Learn about the goals of the IEP Stakeholder Working Group, which includes representatives from the electric and gas distribution companies and municipal light plants, the Attorney General's Office, and representatives from the Department of Energy Resources, Office of Energy Transition, and Massachusetts Clean Energy Center.

Feedback collected during these listening sessions will be integrated into discussions among the electric and gas companies, along with other stakeholders participating in the IEP Stakeholder Working Group.

If you are not able to attend one of the sessions but are interested in submitting comments, receiving copies of the materials, or have questions about listening session logistics, you may email the IEP Stakeholder Working Group Facilitator (Environmental Resource Management) at jennie.cunningham@erm.com.
