

SISLEY PARIS BOUTIQUE

31-33 CHARLES STREET

Here is the rendering of the windows we installed for our future boutique on Charles Street. Considering the urgency of installing windows to improve how the space is looking and the surveys and measurements started, we asked our installer (Duggal) to set these up after approval from our landlord and our ownership.

The windows are exterior decal as we were worried to have to take out the UV filter on the inside of the windows and having to pay to reinstall this while this cost was avoidable.
