

## **Proposal for Entry Gate at 90 Dartmouth St., Boston, MA 02116**

**Date:**

February 17, 2026

**Submitted by:**

Gerry DiPierro, President  
DiPierro Construction, Inc.  
875 Massachusetts Ave.  
Boston, MA 02118

## Current Conditions

**Proposed Design**

## General Information

### **Overview**

DiPierro Construction proposes to install a metal gate with hinges to match style of existing railing at front entry.

### **Method of Attachment**

Hinges for gate will be installed into mortar joints, not through brick (unless requested). Gate, hinges, and bolts will be painted to match.

Gate will swing inwards, meaning hinges will not be visible from sidewalk when gate is closed.

### **Options for Hardware**

1. Least visible from sidewalk

2. Minimal view of side profile of hinge from sidewalk

3. Options for Bolts (1/4" bolts, all painted to match)
