
Connected City

“ Implement the Fairmount Line as a near-rapid-transit level of service so the residents along the line could use it as if it were the Orange or Red lines. The residents along the line are some of those who need transit the most in our city, but have the least access to it.

—Marcus, South End ”

Imagine if all Bostonians could reach jobs and schools quickly and reliably. E.g. how could the Fairmount Line be improved to achieve this?

In addition to boosting the frequency / reliability of the train service we could...

(Check all that appeal to you)

- Implement policies to reduce displacement and encourage new, mixed-income housing along the corridor
- Strengthen job centers along the corridor, including industrial jobs at Newmarket
- Make walking, biking, and bus connections easier at stations
- Strengthen connections between the Fairmount Line and other crosstown transit routes

How would you make this idea better?
