

# Neighborhoods that are Affordable

“ There are so many empty lots in Roxbury and Dorchester. Sell them to individuals not just developers! Please use them for low- and middle-income housing. Create more urban cooperative housing!

— Ashley, Roxbury ”

Neighborhoods that are Affordable

## Imagine if neighborhoods could provide housing at a variety of income levels.

### We would need to...

(Check all that appeal to you)

- Build more housing around the city for working individuals and families, seniors, and others
- Partner with universities to provide more housing for students, both on- and off-campus
- Preserve existing affordable housing
- Explore new types of housing such as microunits and granny flats
- Prioritize housing for Boston's long-term homeless population
- Update zoning and make permitting more predictable to encourage housing production
