

# NOTICE OF UPCOMING PROJECT

The Boston Transportation Department and the MBTA are teaming up to add bus-only and bike lanes to Washington Street making the corridor:

- Safer
- More Predictable
- More Efficient
- More Multimodal

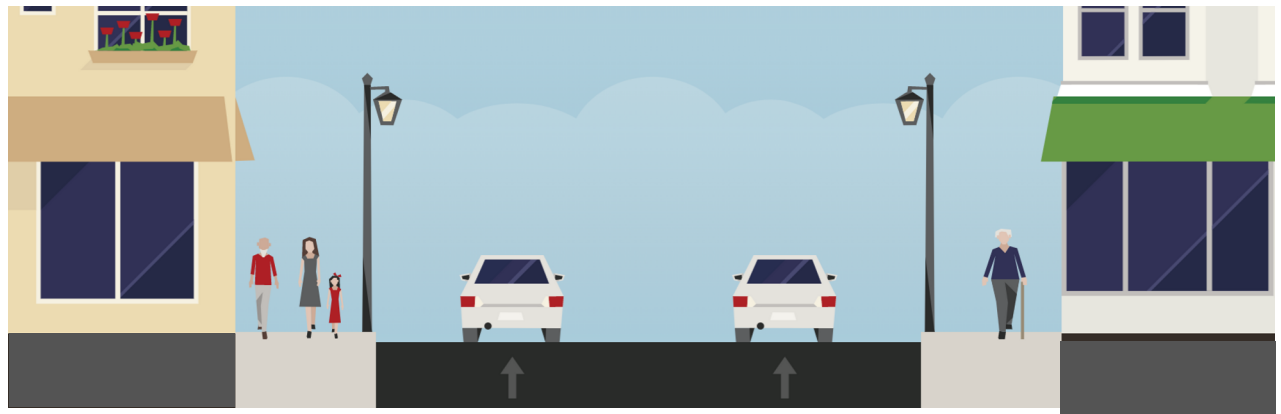

This project will minimize illegal loading and double parking, smooth the flow of traffic, protect cyclists, and decrease travel time for the 16,000 bus riders through the corridor - who account for 65% of all travelers on Washington.

Implementation will take place in late October. The bus-only lane will be enforced by MBTA Transit Police, BTD Enforcement, and the Boston Police Department.
